**DETAILED ACTION**

Receipt is acknowledged of the amendment filed 08/07/2008.

The following rejection is maintained in this action:

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 60-63, 66, 67-69, 73-83, 85-90 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite in that while they set out the potential monomeric units which make up the claimed polymeric coating, the actual polymer is never set out. It is therefore suggested that a generic formula, such as those set out at of page 11 of the specification be set out in the independent claims,

### ***Response to Arguments***

Applicant's arguments filed 08/07/2008 have been fully considered but they are not persuasive.

Applicant argues that because the monomers are set out the polymer is defined by the monomers which make it up. Applicant further argues that the polymeric structure is defined by the monomer units. However, there is no indication of the order, number, molecular weight involved in this polymer. No class of polymer seems to be set out which would further particularly point out the structure. Applicant is again requested to provide some structure from the specification in order to more particularly set out the claimed polymer product.

The rejection under 35 USC 112, second paragraph is therefore maintained.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
